

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Net debt, ... \$1,838,507 62

The last year's business of the general fund of the Treasury, shows an excess of payments over receipts of \$2,025,923.30, and a corresponding reduction therefore in the balance on hand, as compared with that at the end of the previous year.

The estimate of net receipts of the general fund made by the Auditor General and myself for the past fiscal year, was put at \$9,455,729.50, the net amount received was \$9,623,654.89.

In my former report I called the attention of the Legislature to the fact, that in the summary of receipts, were a number of items which were not revenue and therefore not available for the payment of appropriations. These items amount, in the aggregate to about two million dollars and show a corresponding increase of the receipts which is misleading. The largest of these items is that of the State personal tax, all of which is paid into the Treasury, but three-fourths of it is returned to the counties.

The result shows that the Legislature was either misled by the total amount of receipts, as shown by the Treasury report, or disregarded my precaution, as to the difference between the total of receipts from all sources and the amount of actual revenue. Appropriations were made for the ensuing two years of nearly twenty-three million dollars, exclusive of standing or continuous appropriations and balances still due on appropriations of 1893.

Estimating the receipts for the next fiscal year as equal to the past, the net amount of the two years will be \$19,247,309.78. The total amount required, not taking into consideration what is returned to the counties and departments, will be at least \$23,000,000, for the same period.

In the language of my predecessor in office I wish to say also, that, "If the present system of expenditures is maintained, it requires no prophet to foretell what the result will be to the Treasury."

S. M. JACKSON,
State Treasurer.

* These banks, under the authority of the eleventh and twelfth sections of the Act of May 4, 1841, issued the following sums, in addition to those here stated, and pledged to the Auditor General, as security for the redemption of the same, equal amounts of five per centum State stock, viz:

Moyamensing Bank, ...	\$12,500
Bank of Middletown, ...	5,060
Bank of Susquehanna County, ...	5,200
	\$22,760

Of these issues, the Bank of Commerce (late Moyamensing) has redeemed \$11,800, and received back the same amount of the pledged security, whilst at the State Treasury there has been redeemed of the issues of the Bank of Middletown the sum of \$3,545, and of the Bank of Susquehanna County \$4,471, for which equal amounts of the pledged stocks have been canceled, leaving still in circulation of these extra issues—Moyamensing Bank, \$700, Bank of Middletown, \$1,505 and the Bank of Susquehanna County, \$674.

† The Berks County Bank made an over-issue of relief notes to the amount of \$28,501. For the redemption of these the Commonwealth became responsible, pursuant to the Act of January 29, 1845, and has redeemed the sum of \$27,534, leaving still in circulation \$947.
